ProVia™

Brake pads

Brake pads convert the kinetic energy of the vehicle to thermal energy by friction. The ProVia brake pad portfolio covers the most common air disc brakes in the market. 28 different pad kits partially enriched by accessories ensure a safe fit in major applications in the market.

About

- ProVia brake pads are the 'no compromise on safety' choice for vehicles for which premium original equipment brake pads no longer pay off in the total cost of ownership calculation
- Highly reliable brake pad portfolio covering major Air Disc Brake applications in the market
- Most brake pads are delivered with adjusted fitting kits to ensure a safe replacement
- Produced in Germany or England

Key Features

- Universal fit for one brake / size type
- Most brake pads delivered with adjusted fitting kits to ensure a safe replacement
- Portfolio consisting of 28 different pad kits covering major brakes in the market as KNORR, WABCO, Meritor, Bendix, BPW, TEVES and over 340 OE references

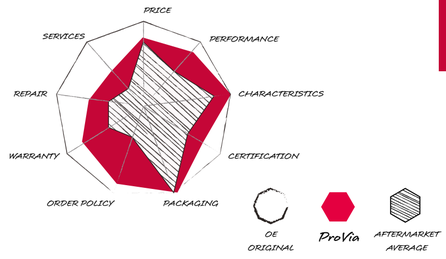

Standards

- Engineered, tested and approved for aftermarket needs.
- Validation according to ECE-R90 standards. In addition to ECE-R90, the brake pads undergo diverse additional tests including the proving of braking performance in several situations (e.g. high stress), targeting high comfort (e.g. pedal feedback) and ensuring reliability and lifetime of disc and pad

On additional test beyond the ECE-R90 standard, all brake pads proved their performance

Engineered and tested for Aftermarket needs

The 'No compromise on safety' choice
